Published Twice a Week--Monday and Thursday

VOL. XXVII. NO. 50 GAINESVILLE, FLORIDA, MONDAY, JANUARY 20, 1908 ONE DOLLAR A YEAR

EXTRA CURRENCY IS

Provided For by the Aldrich Financial Bill.

SUM OF ABOUT $500,000,000

Amendment by Senator Bailey—Democrats Join With Republicans in Advocacy of Most of the Features of This Bill, It Is Said.

Washington, D. C., Jan. 18.—After two sessions of the senate committee on finance the members of the committee were in possession of fair ideas of what shape the Aldrich financial bill will be in when it is reported next week. There will be no more meetings of the committee until Monday, when the various amendments which have been gradually evolved through the general discussion of the bill during this week, will be incorporated in the measure.

It is stated to be practically certain that the limit of extra currency which the bill provides for will be raised from $250,000,000 to $500,000,000.

Most of the members of the committee believe that this figure is not too high for a time of emergency when a heavy issue of currency notes is demanded on security of the prescribed sort, and under the described tax. The tax on the emergency issues will not, it is believed, be placed higher than 6 per cent, which the bill now provides.

An amendment offered by Senator Bailey reducing the required population of a county or municipality whose bonds are to figure in a currency issue from 20,000 to 10,000, is expected to receive the support of a majority of the committee and according to reliable report will be adopted. This will permit smaller towns of just as great an age and of commensurate prosperity with the larger towns to participate in the benefits of the measure.

A democratic member of the committee asserts that the minority as a whole is not in favor of a bill providing a currency based on security of government bonds, but being unable to prevent a favorable report on such a measure, they are making it their duty so far as it lies in their power to make it as effective a measure of that nature as possible, and they are, therefore, joining with republicans in advocacy of most of the features of the Aldrich bill.

KILLED FATHER WITH AX.

Deplorable Family Tragedy Occurs at Davidson, N. C.

Davidson, N. C., Jan. 18—A brutal murder was committed here Thursday morning, when Ezekiel Gregory, a farmer, over sixty years of age, was killed with an ax by his son. The murderer fled, accompanied by his wife, but both were arrested near Mooresville, N. C.

The substance of the story gathered from the daughter of the dead man was that following an altercation in regard to arising, the son went from the house into the yard and defied his father to cross a line drawn with the blade of an ax in the earth. The father crossed the line, a blow was heard, and the daughter rushed out to find her father prostrated.

The injured man did not recover consciousness. Gregory is in jail in Charlotte.

Dogs as Policemen.

New York, Jan. 18.—The three Belgian hounds and the American Airdale, which have been for some time undergoing training in the duties of policemen, have about finished their education and within a few days they will be put on post in the outlying districts. They will be the first dogs ever used by the New York police.

Wants Biennial Sessions.

Savannah, Ga., Jan. 18.—W. F. Slater, representative from Bryan county, and candidate for senator from the first district, will introduce a bill at the coming session of the legislature providing for biennial instead of annual sessions.

SEA ISLAND COTTON.

Savannah Market Shows Full Receipts With Little Demand.

Savannah, Ga., Jan. 18.—The market was quiet and irregular and rather easier for all grades except fancy, which is very scarce and held firm. There was more or less business in practically all grades except extra choice Floridas. Quotations are slightly easier except for fancy Floridas.

Receipts were rather full, evidencing free marketing of the crop, and shipments were mostly to Great Britain. According to the estimate of the crop, based upon the ginning returns, there remains in the country only about 25,000 bales more.

The following prices are based on factors' quotations and are revised weekly on Fridays:

OBITUARY.

The subject of this sketch, Mrs. Katie Britt, was born in Marion county, Fla., Sept. 6, 1868, and departed this life in her pleasant country home in the same county Aug. 17, 1907. She was the daughter of Mr. James C. and Mrs. Mary J. Zetrouer.

She was happily married to Mr. T. A. Britt about seven years ago, which union was blessed with three sweet little children, two boys and one girl.

Sister Britt gave her heart and life to God and united with the M. E. Church, South, at Shiloh in 1888, under the ministry of Rev. W. H. Steinmeyer, and was received into the church at Wacahoota by Rev. T. J. Phillips the same year. Sister Britt was not a very demonstrative Christian, but she quietly and meekly served God in her home as a true and noble wife and loving mother.

Those who knew her best bear testimony that she was a genuine Christian.

Besides father, mother, husband and children, she leaves two bothers, two sisters, and many other relatives and friends to mourn their loss; but they do not mourn as those who have no hope, because they fully expect to meet her in "Our Father's house above."

Her loved ones feel that their loss is very great, but it is her eternal gain.

Her precious body was tenderly laid to rest in Wacahoota cemetery amid the sobs of heartbroken loved ones Aug. 18, 1907. The writer conducted the funeral services. Her pastor,

Would Increase Widows' Pensions.

Washington, Jan. 18.—Representative Bell has introduced a bill providing for a graded increase in pensions for all widows of veterans of the Mexican and Indian wars. The widows are now receiving $8 a month. Mr. Bell proposes that at the age of 62, they shall receive $12 a month. At the age of 77, $16 a month, and at 80, $20 a month. There are a number of pensioners now living in the ninth district, some of whom are 86 years of age, and perfectly helpless, who are receiving only $8 a month.

Fatal Fire at Scranton, Pa.

Scranton, Pa., Jan. 18.—Two girls were killed and seven others seriously injured in a fire Friday in the building occupied by the Imperial Underwear factory. About two hundred girls were employed in the building and there was a panic when the alarm of fire was sounded. Florence Waters was caught in the burning building and she met a horrible death in the flames. Marie Buckley, with a number of other girls, jumped from the fire escape, and broke her back.

BUFFETED BY STORM

Remarkable Escape From Death of British Ship's Crew.

STORY OF THEIR SUFFERING

Caught in Fierce Snow Storm, Vessel Was Wrecked and Crew Thrown Upon Bleak Coast, Where They Faced Wintry Storm for Hours.

St. Johns, N. B., Jan. 18.—The particulars of the remarkable escape from death, and the story of the privations endured by the crew of the British steamer Tollesby, which was wrecked ten miles west of Cape Race on Monday, were learned from men who arrived here Friday.

The Tollesby was bound from Galveston, Tex., for Havre, France, with cotton. During a snowstorm Monday the officers lost their bearings and the ship struck on a submerged ledge at the foot of a steep cliff.

A crew of twenty-four men stayed on the vessel four hours. Just before darkness fell, the storm suddenly increased to a heavy gale. Immense waves swept the decks and the pounding of the seas finally broke the back of the steamer. Three boats were put over the side, but all were smashed to pieces.

The crew then constructed rafts from furniture and landed on a narrow beach at the foot of a high and steep cliff, reaching for miles in either direction.

The men were little better off than when on board their vessel for the tide rose and threatened to sweep them from their position.

One daring seaman, with a rope about his waist, succeeded in scaling the cliff. He was able to haul up three others of the crew.

The rising tide cut off all chances of the other men reaching the rope and the twenty men were forced to stand on a single hillock of sand for nineteen hours. Most of them suffered from frost bites.

EYE ON U. S. SENATORSHIP.

It Is Said Governor Smith Will Announce Candidacy Soon.

Atlanta, Jan. 18.—It seems to be a generally accepted fact around the capitol that Governor Smith is going to announce his candidacy within the next two or three weeks for the U. S. senate.

The governor's prospective candidacy for the senatorship is, in fact, the one absorbing topic around which capitol gossip centers.

Almost every day there is some new report of his having stated his intention to some friend, and the report is being repeated with more and more positiveness.

With some belief has come to be almost a certainty, and there are not a few political prophets whose reputations in that direction will be badly shattered should the governor fail to make them good.

BOOM FOR HAYWOOD.

Boise, Idaho, Man May Be Socialist Candidate for Presidency.

New York, Jan. 18.—William D. Haywood, who was recently acquitted on a charge of murder at Boise, Idaho, is in New York, having arrived Thursday night.

He was received with enthusiasm by the New York socialists. He will confer with Eugene V. Debbs, presumably regarding the move to make Haywood the socialist candidate for the presidency at the next election.

Debbs was the socialist candidate at the last presidential election.

Fire in Moving Picture Theater.

St. Catherines, Ont., Jan. 18.—Fire following the explosion of a moving picture machine occurred Wednesday in the Hippodrome, a small theater here. The audience numbered about fifty, principally women and children, several of whom were painfully hurt by being trampled upon in a mad rush for the street. Louis McDougall, aged 16, was fatally burned. The fire damage is small.

ATTACKED BY BURGLARS.

Watchman in New York Assaulted and Probably Fatally Injured.

New York, Jan. 18.—Burglars attempted late Thursday night to enter the room in the American Museum of Natural History where the famous Kunz Morgan collection of precious stones and gems is kept and John Kenny, a watchman, was probably fatally injured before they were driven away.

At a late hour Kenny was making his rounds, and opened a door leading from the main corridor into the stuffed bird room from which double iron doors lead into the gem rooms. As he opened this outer door, he was suddenly struck on the head, presumably with a hammer, and half stunned. He quickly grappled with his assailant, but the latter drew a pistol and fired a bullet which passed through Kenny's hand. Then striking Kenny a blow in the face that knocked him down, the burglar escaped.

As soon as Kenny recovered sufficiently he summoned the police.

MAY ENFORCE "BLUE LAWS."

Tight Lid Likely To Be Clapped on Chattanooga, Tenn.

Chattanooga, Tenn., Jan. 18.—This city is destined to come under the "blue laws." City Attorney Chamlee has handed down an opinion in the matter of the moving picture shows operating on Sunday, which may result in closing every drug store, soda fountain, cigar stand, newsstand, shoe polishing parlor and every other concern of like character in the city on the first day of the week.

According to T. S. Wilcox, chairman of the board of public safety, it only remains for some one to file complaint and the police will inaugurate a series of "blue Sundays."

There will be no amusement places open next Sunday.

MURDERED AND ROBBED.

No Clew to the Slayer of Dyer County, Tenn., Farmer.

Nashville, Tenn., Jan. 18.—John Davis, a prominent farmer, was found dead in a woods lot near his home in Dyer county, Tennessee, Thursday.

The body was buried at a depth of 6 inches and the base of the skull was crushed in as if struck with an ax. Davis had been missing since last Friday night and when he left home he had $155 with him. When found the money was missing, and it is supposed he was killed for the purpose of robbery.

No clew has been discovered as to the perpetrator of the crime.

The celebration will take place in the hall of the house of representatives on Monday evening, Jan. 20, and Hon. James L. Anderson, of Atlanta, has been designated by the camp as the orator of the occasion. The musical part of the program and other features are in charge of the Daughters of the Confederacy.

Firebug Tries to Burn Church.

Boston, Jan. 18.—That the fire on Thursday morning which nearly destroyed the Second Congregational church in Dorchester, with a loss of $30,000, was the work of an incendiary was the opinion of the authorities. A small hole was discovered in the side of the building where the fire broke out and other evidence of incendiarism was found in the [illegible]

$250,000 LOSS BY FIRE

Masonic Temple at Baltimore Is Practically Destroyed.

NOTED CHURCH ENDANGERED

Fire Was Most Spectacular One—Daring Work of Those Who Fought the Flames—Second Time Masonic Temple Has Been Prey of Flames.

Baltimore, Md., Jan. 18.—The Masonic Temple, on North Charles street, between Lexington and Sedalgo streets, was gutted by fire early Friday. All of the structure above the second story is a hollow shell.

For a time old St. Paul's Protestant Episcopal church, adjoining, was threatened.

The building, which is owned by the Grand lodge of Masons, is insured for $300,000 and the contents for $35,000. The first floor of the structure was occupied by several stores, all of which were damaged by water.

The upper floors were devoted to lodge rooms, all of which were elaborately and sumptuously furnished. There were also in the building many fine oil paintings.

The loss on building and Masonic equipment was placed at $250,000.

As the building burned as freely as though there was not a drop of water being used, the scene was most spectacular. The flames leaped in the air to the height of several hundred feet, illuminating the surrounding neighborhood as brightly as day, while the buildings for several squares around were lighted by the reflection.

One of the incidents of the fire was the daring of a squad of ladder men who, despite great sheets of flame and clouds of smoke pouring from the windows, crawled with a hose to the cornice on the main roof and remained there for nearly half an hour.

The intensity of the heat caused great quantities of tiles to fall but the firemen remained at their posts despite the missiles and directed a stream of water into the interior.

Inch by inch they fought the fire back until the water tower was placed in position. Then they were ordered down.

The Masonic temple is a four story edifice with a width of about 100 feet on Charles street, and a depth of about 200 feet to an alley in the rear of old St. Paul's church. The marble front was scarred and chipped by the flames, but the four walls, owing to their thickness, stand practically intact.

This is the second time that the Masonic temple has been a prey to flames, it having been destroyed on Christmas day, 1890. At that time, however, it was used largely as a theater (old Forepaugh's) and the Masons occupied but a comparatively little portion of it.

FINDS LONG LOST BROTHER.

For 56 Years Nothing Had Been Heard of Thomas Bates by Relatives.

Springfield, Mass., Jan. 18—Thomas Bates when 17 years old, ran away from his home here in 1852. He was seized with the California gold fever and it was supposed that he had gone to that state, but although his family tried for years to locate him, no trace of him was found.

A few years ago his brother, Charles, who resides at Webster, saw the name of Thomas Bates in a roster of the California soldiers in the civil war. After much correspondence, he traced his brother to the state soldiers' home in Tennessee. He wrote there, and a day or so ago, received a reply from the brother he had heard nothing of in fifty-six years.

"The Tampa boys are anticipating with a great deal of pleasure this meeting," said Mr. Campbell, in referring to the matter. "They have arranged to come in style, having chartered a special car. They are all enthusiastic when it comes to anything connected with labor and unionism, and you may feel sure that you will see a fine body of men as a whole when they show up in the convention hall. They are all delighted, too, at the opportunity to visit your beautiful city, of which they have heard so much."

No definite meeting-place has yet been secured, but an effort will be made to get the opera house, in which the committee believes it will be successful.

E. J. WHITE'S LATEST.

His Thoughts Revert to Occurrence While in Gainesville.

Though engaged in the newspaper business at Whitehorse, in the far-off Yukon, where the thermometer goes to 200 degrees below zero, E. J. White, who was for several years engaged in the newspaper business with the present editor of The Sun in this city, evidently has vivid recollections of events that transpired here a quarter of a century ago. White always was somewhat of a humorist, and his latest under the head of "The Stroller" will be read with interest by his old Gainesville friends. The "Zion" he refers to was the faithful negro pressman who, in addition to furnishing the "motor" power for running the Campbell cylinder press, also delivered the paper to the entire list of subscribers in the city, whereas it now requires tne services of four carriers. Here is what White says:

"'Me an' Satan done been pahtnahs
For twenty-five long yeahs,
Now we'se trablin diffunt highways
Tru dis vale ob teahs-s-s-s-s.'

"It was February in Florida. The air was laden with the perfume of orange blossoms; magnolias and yellow jessamine were in bloom, as was also campmeeting on Hogtown creek. It had started the first week in January and by the middle of the following month upward of 1,000 sons and daughters of Ham had ''sperienced 'ligeon' and 'fessed" innumerable petty thefts, mostly of chickens and hogs—not razor-backs, as they can outrun niggers.

"Zion, the Stroller's man of allwork, had served a ten-days' sentence in jail, beginning the day after Christmas, for not being able to explain where he got his Christmas turkey, but by the middle of February he was the loudest singer and most tumultuous shouter at the campmeeting. He was on his 45th lap.

"'Tru dis vale ob teahs-s-s-s—' when the Stroller told him to chuck it and pull Old Somnam, the office alligator, out from under the press and get ready for publication.

"'Yo'r sordid and co's business language sounded vehy rude ter me, sah, as I am wholly sanctified, an' a printin' office ain't no place fo' de Lawd's 'nointed, no how. Pay me de fohty-five cents what is comin' an' git nuzzer man.'

"As Zion sauntered down stairs there was wafted back to the office—

"'Me an' Satan done been pahtnahs.'

"The above happened on Saturday, and Monday morning when the Stroller approached his office he was greeted with the following light and airy coon melody:

"'If Ah evah kotch yo' foolin roun' my Lulu,
Ah'll tole yo' what Ah'll do,
Ah'll play aroun' yo' haht wid my razzor
An' cahve aroun' yo' gizzard to-o-o.'

"'Hello, who re-employed you?' asked the Stroller.

"'Done hired mahself,' replied Zion. 'You see hit am dis way:

"'Ah ain't so much sanctified as Ah seemed Sat'day. Dat night Ah stole a chicken an' Lizah 'sisted dat we hab de pahson wid us fo' dinnah yistiday an' all Ah got outen dat chicken was one — — — — — — — little wing. No mo' campmeetin' fo' me.'

"'An now Ah would like to celebrate mah return to yo' employ by hitten up de moonshine.'"

DR. C. A. CARY WILL SPEAK HERE

Will Address the Farmers' Institute in This City in February.

A MAN OF HIGH INTEGRITY

Has Been Veterinarian of Alabama Polytechnic Institute for Nearly Twenty Years, Also Superintendent of Farmers' Institutes in Alabama.

Dr. C. A. Cary has been veterinarian of the Alabama Polytechnic Institute for nearly twenty years. In addition to his work as veterinarian, he has been superintendent of Farmers' Institutes. This work in Alabama had its beginning in very small proportions, but now it has grown so large as to take nearly all of Dr. Cary's time, together with institute speakers from other parts of the Southern States. Even the State of Florida has been called on from time to time to contribute speakers for their institute work.

At the Farmers' Institute, which will be held at Gainesville on February 5, 6 and 7, Dr. Cary will deliver lectures on the good and bad points in beef cattle. To illustrate his lectures he will use on the first day live cattle of the Hereford breed, which will be furnished by Mr. N. A. Callison, and one of a native steer, to be obtained from a local source. On the second day Dr. Cary will deliver a lecture exhibiting these same cattle after they have been slaughtered, showing how they should be cut up, and showing how the good cuts in the improved breed are proportionally much larger than in the unimproved breeds.

Dr. Cary's lectures to farmers' institutes have gained for him an interstate reputation. He is a graduate of the largest and best agricultural college in the United States.

AT CATHOLIC CHURCH.

New Side Altars of Handsome Design Are Being Installed.

St. Patrick's Catholic church, of which Father P. J. Lynch is the faithful and efficient pastor, is determined not to be behind the other churches of the city, with the result that he has just received for the church two handsome life-size designs in sculpture, being the Virgin Mary and child, and St. Joseph, which will be installed on either side of the altar.

These valuable pieces, which are very handsome, came from Germany, and are as pretty and perfect pieces of workmanship as were ever seen in this country. Their presence will add greatly to the interior of the church, in which Father Lynch and his congregation take great pride.

BOUGHT FINE FARM.

Hunter & Oliver Purchased Graham Farm, West of Gainesville.

One of the most important transfers of farm property made in this section for some time was the purchase from the First National Bank, as agent, of the famous Graham farm, located about two miles west of the city.

This farm comprises 455 acres of as fertile land as can be found in the State. The entire tract is under fence, but only about 160 acres cleared.

Hunter & Oliver, who are up-to-date people, will start a hog ranch in addition to raising feed for their livery stock. They have already purchased a foundation herd of black Berkshires, and expect to make a good thing from this industry alone.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

THE PASTOR POUNDED.

Rev. T. Z. L. Barr and Family Given Pleasant Surprise.

Editor Sun: On Tuesday night, January 7th, the kind people of Melrose turned out in a large number and surprised their new pastor by giving him a very heavy pounding.

Men, women and children came until our large parsonage was almost crowded, each one bringing some valuable package for the pastor's family. They tried to bring everything that a family could possibly need for the dining-room and kitchen, and a young lady even brought a package of money. A few moments were spent in pleasant conversation, some harmless games were played, a hymn was sung, and prayer was offered that God would make this year a very successful one. The people then returned to their homes, leaving the pastor and his family to enjoy the good things left them.

The pastor's heart is filled with love for those who have so kindly received him, and his earnest prayer is that God may make him a great spiritual blessing to the entire charge.

Fraternally, T. L. Z. BARR,
Pastor in Charge.

Melrose, Fla., Jan. 16, 1908.

BEWARE OF PHYSIC.

Only Aggravates Stomach Trouble and Never Cures.

The trouble with most people who have stomach trouble is that they do not like to take the time to get cured; they overeat and then take physic, which simply upsets the stomach and never cures.

While relief follows one or two doses of Mi-o-na stomach tablets, chronic and long-standing cases need at least two or three weeks' treatment before the sick headaches, dizzy spells, bloating, heartburn, constipation, nervousness and other symptoms that directly result from indigestion are banished never to return.

Mi-o-na is entirely different from the ordinary stomach remedies. It is taken before meals, stimulating the secretion of digestive juices and strengthening the stomach so that it can do its proper work.

With every 50-cent box of Mi-o-na J. W. McCollum & Co. give their guarantee to refund the money unless the remedy cures.

ARRESTED NEGRO PREACHER.

Marshal Arnow Received Instruction from Lake City—Soon Had Man.

From Saturday's Daily Sun:

Acting under instructions from the officials at Lake City, Marshal Arnow Friday arrested Rev. J. H. Matthews, a colored preacher, who it is said is wanted by the Columbia county authorities upon a charge of larceny of wood.

Matthews was located without trouble in a house in Springfield, where he was placed under arrest. He was lodged in the Alachua county jail, and the officials at Lake City notified.

THE REPUBLICAN CONVENTION.

County Republicans Met and Named Delegates to Convention.

In compliance with the call, the Republicans of Alachua county met in convention at Johnson's Hall on Thursday, at which time delegates were elected to both the State and Congressional conventions, which will be held in St. Augustine.

The meeting was presided over by Postmaster L. C. Lynch, chairman of the County Executive Committee, and Benj. Rush acted as secretary. It was a most harmonious gathering, nothing transpiring to mar the proceedings.

When the name of President Roosevelt was called, this was a signal for an outburst of enthusiasm. National Committeeman J. N. Coombs, Chairman Henry S. Chubb, of the State Central Committee, and Joe Lee, secretary of the State Committee, also came in for their share of commendation, and resolutions endorsing the administration of everything from Roosevelt down were passed, after which the convention adjourned.

J. J. FINLEY CHAPTER.

Why

Should your baby suffer? When he is fretful and restless, don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known worm medicine and cure for children's diseases. It is mild in its action, builds up the system, makes thin, puny babies fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain its food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. W. Johnson.

Mr. and Mrs. Yancey Here.

Mr. and Mrs. G. H. Yancey, Jr., who were married in Atlanta last Wednesday, mention of which appeared in The Sun, have arrived in the city, and will make their future home here.

Mr. and Mrs. Yancey will be pleasantly located with Mr. and Mrs. Edgerton, in one of the McIleath cottages on North University street. Their friends gladly welcome them.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble, as it corrects irregularities and prevents Bright's disease and diabetes. J. W. McCollum & Co.

IMPORTANT TO SUBSCRIBERS.

Owing to a new rule of the Postmaster-General publishers of newspapers are not permitted to extend credit to subscribers for more than one year for weeklies or three months for dailies. It therefore behooves subscribers to settle their back dues at once, as we must revise our list and eliminate the names of all subscribers who are in arrears further than the new law permits. We have now no choice in this matter, but are compelled to comply with the new rule in order to send The Sun through the mails at pound rates.

The new rule of the Postoffice Department is made to rid the mails of publications issued principally for advertising purposes, and while in some instances it will work a hardship upon legitimate publishers, the order will in the long run prove of benefit to them by eliminating from the mails unfair competitors who have abused the pound rate privileges.

Postmaster Lynch of the Gainesville office is disposed to be as lenient as possible with the publisher, but our list must be revised at once, and unless you settle your subscription account it will be our unpleasant duty to strike your name from our mail list.

Remit by postoffice order, check or registered letter, and DO IT NOW.

Even the price of convict labor has "slumped" about ten dollars per month. This will make quite a difference to the treasury of Alachua county.

A Newark woman has left her husband and is suing him for a divorce, because, as she alleges, he made her sleep on an ironing board—wonder if he published the stereotyped announcement, "My wife ——— having left my bed and board," and so forth?

Parties writing items for publication in The Sun must sign their name, in order that the editor may know who he is indebted to for the contribution. If you are ashamed of your name or contribution, do us the kindness to send your production to some other paper. We do not desire it.

Many physicians agree that it is more or less dangerous to stop heavy drinking too abruptly. Anyhow, prohibition in less than three weeks old in Georgia, and already a man in Gainesville reports "an alligator-shaped creature, striped with many colors, that fell from the clouds on last Thursday."

The South Florida Normal Institute, Dade City, has reached an enrollment of 322. The school board has contracted with Prof. P. W. Corr, as principal, for the next five years, and it will meet next Friday to open bids and let contract for a large annex to the present building. No school in the State is doing better work or making more rapid growth than the South Florida Normal Institute. The cornerstone of the new building will be laid with Masonic honors.

THE TRIBUNE AND "BIZ."

We cannot help wondering if The Gainesville Sun knew just what it was driving at when it said the other day, "In Duval county candidates are already making formal announcements, illustrating their 'spiels' in the newspapers with pictures of themselves. Discourage the idea in Alachua county." Bless Brother McCreary's guileless soul, those sixteen bold Alachuans who have their hearts fixed on the sheriff's office instead of being discouraged should be trolled after with most fascinating bait and made to understand that there's nothing like copious advertising, cut included, whether the seeker after notoriety and success be preacher, professor, philanthropist or politician. The Sun would do well to take it all back and offer its valuable space for all kinds and conditions of men at so much per. That's biz.—Tampa Tribune.

The Tribune is assured that The Sun knew exactly "what it was driving at," towit: That early announcements of candidates for office in Alachua county should be discouraged, and we think it should be done in every county in the State. Candidates here think the editor should run their announcements for three or four months at the same price he charges for thirty days, and that no more should be paid for publishing the card in a daily and semi-weekly than for a weekly. The Sun gives all candidates due notice that the fee for publishing announcements will be in proportion to the number of lines and length of time same is to be inserted, so the fellow who thinks the "early bird catches the worm" can understand once for all that he will have to pay for his "worms."

A short, snappy campaign is what The Sun wants, Brother Stovall, and the later the primary is called the better it will suit the people of all classes.

DRAW THE LINE.

Very significant was Secretary Taft's reply, says The Wall Street Journal, to a question in regard to Government ownership of the mines and railroads. The Secretary's reply was:

> "Think what would happen if all those vast powers which would go with Government ownership were put in the hands of a few men at Washington. Lord knows the powers are sufficiently concentrated there now."

This comes from the lips of a member of President Roosevelt's cabinet who is President Roosevelt's choice for the Republican nomination, and who is a firm supporter of the Roosevelt policy of Federal regulation of the corporations.

But it is one thing to advocate an increase in the Federal power to regulate, and another thing to advocate an increase in the Federal power to own.

It is highly important that we should draw the line strictly, and while clothing the Federal Government with ample power over the interstate commerce so as to prevent the abuses of individualism, we should sternly oppose any increase in the Federal power that would result in the destruction of individual liberty. We want to regulate competition, but not to annihilate it. We want to prevent private monopoly, but not by creating a Government monopoly. We want to safeguard ourselves against evils of unrestricted individual and corporate power, but we want also to safeguard ourselves against throwing upon the Government responsibilities which we as individuals should carry for ourselves.

Hon. W. J. Bryan, the recently appointed United States Senator, writes an open letter to Frank Harris, editor of The Ocala Banner, in which he "roasts" the latter for the criticism of him on account of an interview in which the Senator was credited with saying: "I am going to make the people of my State the best Senator our State ever had." Also, "Some day I shall be the oldest Senator." Senator Bryan denies having made any such remarks to anyone, and from what we had known of him in the past we were loath to credit him with such little political sagacity as to have done so. Personally we have always liked Mr. Bryan, but we are surprised at the temper of his reply to Editor Harris. He was evidently "hot under the collar" when he penned the article, and a man occupying the exalted position he does should not become so excited over such a small matter as newspaper criticism.

"PISTOL-TOTERS" IN GEORGIA.

Now that the Empire State of the South has banished whiskey from its borders the authorities are turning their attention to the great evil of carrying concealed weapons, especially the pistol-toter.

Referring to this practice The Atlanta Constitution says:

"With courage and pith Judge Wright, of the Rome circuit, has struck one of the greatest evils in Georgia and the South squarely between the eyes. To the Rome grand jury he charged:

"'The pistol-toter is a far greater menace to the community than the blind tiger.

"'The conviction of one pistol-toter in this community would do far more good than the conviction of men selling liquor.

"'A man never knows when he is going to be shot down like a dog by some fellow carrying an arsenal in his hip-pocket.

"'That is the truth of it; let us indict them and let us apply the law to them as vigorously as we know how.'

"Judge Wright has, with perfect accuracy, said the first and last words with regard to a practice which the authorities of this State are impelled by their oaths and the public safety to stamp out relentlessly.

"The pistol-toter we have always with us. Whiskey merely complicated the problem. From an official standpoint, it has disappeared—and he still remains, ever ready to arbitrate some petty quarrel with the deadly six-shooter.

"There is no evading the issue. Every man who carries a pistol without the sanction of law is a potential murderer. He may not leave his home with murder in his heart. But it needs only the slightest provocation to stir the blind blood-lust in his veins and, reckless for the moment of consequences, to resort to the means of death so easily at hand.

"When we drive out whiskey and ignore as negligible its deadly accessory, we are dangerously near making a farce of the enforcement of law in Georgia.

"When we impose drastic penalties on druggists for selling fatal drugs, and complacently tolerate a habit that reaps ten lives where posions reap one—we are guilty of almost criminal inconsistency.

"Make the pistol-toter an extinct species in Georgia. He has no place in modern civilization!"

A BIG BOOST FOR FLORIDA.

"It is surprising to me that Americans do not boom Florida as the ideal winter resort of the world," said Sir Thomas Dewar, who is at the Hotel Plaza.

"What Florida needs is a corps of competent publicity men in Europe. English people are getting tired of their aged resorts, but they have not yet learned about the beauties of Florida.

"I think if you could get the English people to take up Florida, all America would flock there in February and March. You should have first of all a line of steamships to make a circuit from London to Florida, and returning via the West Indies. Then send your agents to England and to the continent and let them spread the wonders of Florida broadcast. When a man has been there once he will tell his friends about it and he will go again.

"I am on my way to Florida now, and after a few weeks of tarpon fishing I shall go over to Jamaica, and when I get back to England I will be a new man. Palm Beach is my choice of winter resorts today. I am sick of Monte Carlo and the Nile is poison to me. I am sure thousands of people in Europe feel the same way, but they keep on going to the Riviera and other places they are familiar with. If you can once turn the tide toward Florida it will become world famous in a very short while."—New York Telegram.

The woman who is not a "bargain-hunter" is either too rich to care, or too poor to care, what things cost. In either case she is leading a pretty uninteresting life.

PIANO AND ORGAN TUNER AND REPAIRER

Gainesville, Florida.

THE "SEA-GOING RAILROAD."

January 16 witnessed the culmination of an important stage in the great project being worked out by Henry M. Flagler when the new railroad from Miami to Knight's Key was opened. This line is the longest part of the ambitious extension of the Florida East Coast railway, by which the road's terminus will be moved from Homestead, Fla., to Key West, 123 miles further South. On January 16 the Miami, Key West and Havana steamer service was discontinued, and passengers for Cuba are now carried to Knight's Key before embarking. This key is within forty-six miles of Key West, the ultimate goal of this unique railroad.

Referring to this great work The Wall Street Journal says that construction work on the extension was begun on May 1, 1905, and the frequent engineering problems met with each step of its progress have been successfully solved. Stretching its way from key to key over intervening lanes of water varying in depth from a few inches to 30 feet, the new line when completed will have been built for 74 miles on land, 25 miles through swamps and 23 miles over water. It has been appropriately nicknamed the "seagoing railroad." On the entire route 50 keys are crossed, and the delay accompanied the procuring of material for the connecting concrete viaducts has prevented earlier completion of the new section.

Included in the 156 miles from Miami are nearly six miles of concrete viaducts and 80 miles of embankment, rising 31 feet above the water to protect the track from storms. The line has ten bridges, two of them drawbridges with 40-foot clear openings on each side of the pier, and one with a clear opening of 100 feet on each side. The longest viaduct from Long Key to Conch Key is 10,500 feet, built in the most substantial way. In places concrete work on the railway has cost more than $500,000 per mile. The road is, of course, single track, with 70-pound rails, and is an excellent piece of construction work. For the extensive grading necessary 4,000 men were employed last winter.

The completion of the road is expected to make a wonderful change in the development of Key West. With railroad facilities this city should take a position as a port entry on a par with Galveston, Mobile and New Orleans. Kew West will obviously be the port of Cuban traffic, being but a little more than four hours distant from Havana, and will be the nearest rail connection for Hayti, San Domingo and the Panama Canal. From the opening of the canal a large amount of profitable business is expected to originate, while the winter tourist traffic is a sure source of considerable passenger revenue. Prosperity and real estate in Key West have advanced by leaps since the coming of the railroad was made certain. The city's harbor is expected to provide wharfage space for 40 deep sea vessels, with wharves 800 feet long. This harbor has been filled in for an acreage of 800 by 1,500 feet by pumping mud from the bay, and upon this newly-made land will be built the terminal. There will also be erected here another Flagler hotel.

Completion of the last sectoin of 46 miles to Key West will be pushed, but will not be accomplished for many months.

Judge Chas. H. Laney of Pensacola is a candidate for Congress from the third district to succeed Congressman Lamar. Referring to his candidacy The Pensacola Journal says: "Judge Laney is one of the most entertaining and most forceful stump speakers in the district. In fact, it is doubtful if there is a man in the district who is his equal as a political orator, and he certainly has no superiors. Just what he will do to these other candidates when he gets into the fight remains to be seen, but if he makes a thorough canvass of the district the campaign will not want for plenty of oratorical pyrotechnics. This now makes four Congressional candidates—Griggs of Apalachicola, Kehoe and Laney of Pensacola, and Stephens of Marianna. Now if Fred Myers, Jim Broome and 'Old Nat' Walker will only enter, the people will have all the fun they're looking for. The water is warm—come on in."

Practically every train brings people to this city "to live"—to settle down. Many of these people must find furnished rooms or boarding places. Three out of four of these will find their "ready-made homes" by answering want ads.

Alachua county is not the only one in the State in which complaint is occasionally heard concerning the condition of the public roads, as witnesseth the following from The Marianna Times-Courier: "Truly, 'it's an ill wind that blows nobody good.' Since our public roads have become so very bad a colored man living three miles east of town has opened up a road through his field and collects ten cents toll from all passing that way. We hear that he makes four and five dollars per day."

Hon. Park Trammell gave as his reason for withdrawing from the Senatorial race that he could not bear the expense. We fail to see, however, wherein the expense will be much less for him to make the race for Attorney-General. He will be compelled to make as thorough canvass for one office as the other, and the "stakes" were much greater in the Senatorial race that his friends will be surprised to hear of his entry in the "selling" event.

"Reader of The Sun and Believer in Fair-Play—Even in Politics," should have signed his name to the note he sent to the editor of The Sun under date of January 18th. It is hardly "fair-play" to hide behind a nom de plume—even in politics, especially when the typewriter is used to hide even so much as the identity of your handwriting. Better practice what you preach, old fellow—or young fellow—whichever you may be.

The Presbyterians would not take the Roebling "anti-temperance" bequest in North Carolina, but the Episcopalians accepted with thanks. And yet their "confessions of faith" are not wide apart.

You will prosper best by visiting but seldom the stores that do not advertise—say about one every ten years!

U. C. V. EXERCISES TO BE HELD MONDAY

Interesting Ceremonies Expected to Transpire at Court House.

DR. ANDREW SLEDD TO SPEAK

He Will Make the Memorial Address. Veterans of the Gray Are Expected from Every Section of the County. Invitation Extended Public.

From Sunday's Daily Sun:

It is expected that Gainesville will be visited by many old veterans Monday from every section of the county, as this is the day set apart for the commemoration of the birthday of the lamented Confederate General and hero, Robert E. Lee.

Once each year these gray-haired old veterans, who nearly half a century ago took up arms in defense of the cause they believed was right, take great pleasure in coming together to commemorate the memory of their departed leader, and the program and scenes are usually very impressive. These heroes of the lost cause are gradually diminishing as the years go by, but there are still quite a number scattered throughout the country, and they make a good show as an assemblage.

The exercises will begin at 10 o'clock in the morning at the court house, and Dr. Andrew Sledd, president of the University of Florida and one of the most eloquent and widely read speakers in the South, will deliver the memorial address. All Daughters of the Confederacy, Confederate Veterans, G. A. R., and the public generally are extended a cordial invitation.

Hon. W. M. Blitch of Santa Fe is commander of Stonewall Camp, under the direction of whom the exercises will be held.

The borough of Manhattan, the principal part of Greater New York, is the most densely populated territory in the world, being 100,492 per square mile. Not even the most thickly populated section of London equals it.

THE FEDERATION OF LABOR.

State Convention to be Called to Order at Noon Tuesday.

From Sunday's Daily Sun:

The annual convention of the State Federation of Labor, which will be held in this city, will be called to order in the opera house at 12 o'clock noon Tuesday by State President Max Moritz of Tampa, which will be followed by prayer by Rev. Thos. P. Hay of the First Presbyterian church.

After this prayer Mayor W. R. Thomas is scheduled for an address of welcome in behalf of the city, which will be responded to by the president, Max P. Moritz.

Hon. H. H. McCreary has been invited to address the Federation, the subject to be of his own selection.

After the addresses appointment of committees will be made, and an adjournment taken until Wednesday.

A large crowd, representing every branch of labor from every section of the State, is expected at this convention.

RARE MUSICAL TREAT BY LOCAL TALENT

Entertainment By Kirby Smith Chapter A Great Success.

THE OPERA HOUSE WAS PACKED

Every Seat Occupied and Many Compelled to Stand—Young People Enjoyed Dance After Rendition of Program—Delicious Punch Served.

The most largely attended and enjoyable musical and literary entertainment held in this city for years was the musicale given at the opera house Friday evening under the auspices of Kirby Smith Chapter, United Daughters of the Confederacy, in commemoration of the birthday of General Robert E. Lee.

The opera house was crowded, every seat in both balcony and gallery being occupied, and a score or more people were compelled to stand. It was a good-natured crowd, however, and everything passed off in a most pleasing and enjoyable manner.

The stage was attractively decorated for the occasion, for which the ladies are indebted to L. J. Burkhim. The decorations were simple but handsome, the colors of the U. D. C., flags and a few pot plants being employed in its make-up.

The proceeds of this entertainment will be devoted to the Kirby Smith scholarship at the University, and the Old Soldiers' Home in Jacksonville. Notwithstanding the fact that a small sum—only twenty-five cents—was charged, the venture proved quite a success financially, and all connected with it are perfectly satisfied.

Program.

1. Piano—"The Last Idea of Weber," was skillfully rendered by Miss Alice Thomas.

2. Vocal Duet—"See the Pale Moon," by Miss Zeigler and Miss Lovie Goode, was so highly appreciated that they were compelled to respond to an encore.

3. Song—"Roberto, o tu che adora," was so beautifully and perfectly sang by Mrs. C. E. Dunham that the vast audience would not be satisfied until she responded to the vociferous applause.

4. Piano—"Mazurka Brilliante," by Miss Eddy, was much appreciated.

5. Song—"Tonight," by Gainesville's favorite vocalist, Mrs. W. S. Prindle, was applauded time and again, and was without doubt a favorite of favorites on the program.

6. Recitation—"Kindergarten Pap," by Miss Bowers, took the house by storm, and the young lady was compelled to appear before the footlights a second time.

7. Song—"The Nightingale's Song," was sweetly rendered by Miss Zeigler of Ohio, who is the popular guest of the Misses Goode. She was the recipient of a handsome bouquet of flowers and was so repeatedly encored that she had to respond with a second number.

Part II.

1. Piano—"Valse Lyrique," was rendered in that perfect manner by Miss Clara Pound which has made her one of the most popular performers in the city.

2. Song—"The Rosy Morn," was a sweet song, sang by a sweet, beautiful lady—Miss Lovie Goode—and the continued applause which greeted her both prior to and after its rendition was evidence that she holds a warm place in the hearts of the Gainesville public. She responded to the encore with a beautiful number.

3. Song—"Because I Love You, Dear," was sang by Mr. J. A. Goodwin in that clear, distinct voice which has made him universally popular with Gainesville audiences for so many years. The audience would not be satisfied until he repeated the number.

4. Recitation—"Wouldn't You, Charlie?" was the occasion for Miss Bowers' reappearance, and the applause she received demonstrated that she had pleased the audience greatly.

5. Songs—(a) "Love Song," and (b) "Little Blue Pigeon," were rendered by Mrs. C. E. Dunham in a sweet, clear voice, and received much applause; in fact, the lady was compelled to bow her acknowledgment to the encore.

6. Song—"Mona," was beautifully and perfectly rendered by Mrs. W. S. Prindle, and the audience again demonstrated their appreciation of her cultivated voice.

7. Piano—"Good-Night," was rendered by Miss Ida Burkhim with that touch which even the most ignorant of music cannot help but recognize in an accomplished pianist. With the exception of the accompaniment to Mr. Goodwin, which was rendered by Miss Myrtle Fennell, one of the most accomplished and popular musicians of the city, Miss Burkhim was the accompanist of the evening, and her readition was perfect in each instance.

At the conclusion of the musical program the ladies of Kirby Smith Chapter served delicious fruit punch to all who remained to partake thereof. It was without doubt the finest punch of the kind that could be prepared, and its delicious flavor demonstrated that the chapter made no mistake in placing this feature of the program in the hands of Mrs. A. B. Oliver.

Many young people remained at the opera house and participated in a dance until 12 o'clock.

Kirby Smith Chapter has given many pleasing entertainments, but none more successful from every standpoint than that of Friday night, which was under the direction of Mrs. J. B. Cutler and Miss Myrtle Fennell, who had been delegated to look after the musical features.

Gen. R. E. Lee's Portrait.

The beautiful picture on exhibition at Miss Norton's store Friday and Saturday was placed Saturday afternoon in the auditorium of the public school building by a committee of the J. J. Finley Chapter, U. D. C.

This picture was presented to the public school by the J. J. Finley Chapter, U. D. C., in commemoration of the birth, stainless life and brilliant career of our well-beloved General, Robert Edward Lee. The chapter hopes in the near future to place in the public school building pictures of other Confederate generals.

The Board of County Commissioners have ordered a new 600-gallon fire engine for the fire department of Key West.

The St. Augustine Humane Society are doing good work in their city. They have just appointed an agent to spend his entire time on the street.

A review of the conditions of the potato acreage at Hastings indicates at present a very large crop to be planted. There has been some fear that owing to the money stringency there might not be the usual demand for potatoes this spring, but all the farmers appear to be getting in shape to plant, and there is not an acre of improved land for rent in that section.—St. Augustine Record.

COL. LITTLETON OF THAW'S COUNSEL

Native of Tennessee and Self-Educated Man.

HE NOMINATED JUDGE PARKER

Created Great Enthusiasm Among Delegates—Littleton Was a Prominent Member of Texas Bar at Age of 24, When He Removed to New York.

The Tampa Tribune of January 13th contained the following interesting sketch of the lawyer to whom Harry Thaw has entrusted the chief defense of his case in his second trial:

"Martin W. Littleton, chief counsel for Harry Thaw, is today receiving the earnest congratulations of his legal colleagues and friends upon having passed another milestone in his comparatively short but famous career. Littleton was born in a log cabin in Roane county, Tennessee, January 12, 1872, so that now he is only 36 years of age. His rapid rise to fame has been one of the most phenomenal among the legal lights of the country. He has gone up like a rocket, and there is nothing to indicate a descent. His fellow attorneys look upon him as a fixed star in New York's legal firmament, and one whose brilliancy will constantly increase with years.

"The chief counsel for Thaw is a self-educated man, having attended school only one term. He was a farm hand and a baker's assistant in his youth, and at the age of sixteen became a track-walker in Texas. It was here that he was seized with the ambition to become a lawyer, and at nineteen this self-educated boy was admitted to the bar. Down at Weatherford, Tex., the people are still talking of the excessive brightness of 'Mart' Littleton. They are not surprised that he has become one of the greatest lawyers in the country. They would not be surprised at any greatness 'Mart' may achieve, even to the Presidency.

"Littleton left the little town of Weatherford to embark on a greater career in Dallas. He was only twenty-one when he invaded the big Texas city, but the older and more seasoned attorneys of the Dallas bar were soon forced to admit that the Weatherford 'boy lawyer' was a smart youngster, and when he had shown his ability in a few important cases he cut a large niche for himself as one of the foremost lawyers of the North Texas metropolis.

Went to New York.

"On December 1, 1896, at the age of twenty-four, the young lawyer married Maude Wilson in Dallas. Considering Dallas too small to afford full scope for his ability, Littleton had determined to establish himself in the nation's metropolis. Giving up her luxurious home in Texas, the bride of a few days set forth with Littleton for New York. The couple had little money, but Littleton was primed with ambition and his young wife abounded in faith. So, late in 1896, Littleton first set foot in New York—the great, careless, heartless city he had come to conquer.

"And he did conquer. The task was not easy, at first, but Littleton's spirit was indomitable. He did not wait for opportunities. He made them. The metropolitan lawyers, with blase smugness, at first sneered at the enthusiasm of the young Texan. But less than three years after his arrival in New York Littleton was made an Assistant District Attorney of Kings county, a position which many older and more experienced lawyers would have been glad to secure. While serving in this capacity, Littleton prosecuted 'Get-Rich-Quick' Miller and assisted in conducting many other famous cases.

"New York is quick to recognize genius, so it was not long before Littledale had become famous as an orator and an after-dinner speaker. He combined the suave charm of the Southern gentleman with the nervous alertness of the Yankee, and the combination was a pleasing one to his auditors.

A National Figure.

"It was in 1900 that Littleton became a national figure. Called upon to 'fill in' at a Brooklyn Democratic meeting, which was addressed by men of national fame, he became the orator of the evening. In 1904 the Democrats of New York decided that Littleton was the one man to deliver the speech nominating Alton B. Parker for the Presidency at the St. Louis convention, and if the enthusiasm he created among the delegates could have been spread among the voters of the country, Parker would have been elected. In 1904 and 1905 Littleton was borough president of Brooklyn, and he makes his home in the big borough across the bridge.

"He retired from public life two or three years ago in order that he might build up a private law practice, and in this he has been as successful as in all of his other endeavors. If he succeeds in securing the acquittal of Harry K. Thaw, pitted as he is against the master of criminal prosecution, Jerome, he will have succeeded in his boyish ambition to 'conquer' New York."

Thousands Have Kidney Trouble and Never Suspect It.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Jeavons Dramatic Company.

From Saturday's Daily Sun:

The Sun acknowledges a friendly call from Burt Rutherford, the clever advance representative and press agent for the Jeavons Dramatic Company, the big theatrical tent aggregation which will appear in this city for one week, beginning Monday.

If Mr. Jeavons' company is as clever as his advance force, it goes without saying that they will make a hit here. The company is playing under a magnificent new tent. The stage is large, the scenery handsome, the appliances modern, and in all the attraction comes with the highest recommendation of the press throughout the country.

The tent is lighted by electricity.

OBSTINATE ULCERS

MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into Cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.

Mr. Waits has been a regular subscriber to this paper since its first issue, and has never been in arrears for more than three months at any one time during the past quarter of a century.

He has killed twenty-five head, all fat and fine, and has yet 125 in the field. Mr. Wells believes in good hogs, and his foundation herd is among the best and healthiest in the country.

William Price, who operates a cannery near Melrose, was in town yesterday and made The Sun an agreeable call, renewing his subscription. Mr. Price puts up as nice canned goods as can be obtained anywhere in the country, his peaches and tomatoes being especially fine. The peach crop was short last year, however, and his supply was long since exhausted.

Had a Big Time.

The smaller children of the First Methodist church indulged in a good time at the parsonage Saturday afternoon. Their organization is known as the Children's Brigade, and it is their custom to have these entertainments at regular intervals.

The entertainment Saturday afternoon was attended by about fifty of the little folks, and a most enjoyable program, musical and literary, was rendered.

Delicious refreshments of ambrosia and cake were served during the afternoon, and at a late hour the little folks returned to their homes in a happy frame of mind.

Accident to Lad.

Master Chas. Holstein, son of Mr. and Mrs. H. P. Holstein, was the victim of a painful, though not necessarily serious, accident Saturday morning.

The lad, while playing in the street in front of the home of his parents on West Liberty street, stepped on a broken bottle, with the result that he sustained a serious gash in the instep of one of his feet.

Dr. Hodges was summoned and dressed the wound, and at last accounts the little fellow was getting along as well as could be expected, though he will be incapacitated for several days.

Some Fine Hogs.

J. M. Spivey has returned from Ft. White, where he has been on a pleasant visit to his daughter, Mrs. J. R. Pope. Mr. Spivey states that his son-in-law has just finished killing hogs. Several were slaughtered, the largest of which weighed over 300 pounds dressed. This is the kind of meat the farmers should become accustomed to raise, as it is much sweeter and more economical and satisfactory in the end.
